Agenda

First Section	2
Second Section	6
Appendix	9

First Section

A normal slide

Slides come from = sections and = headings; the sidebar, header and footer are automatic.

- Touying handles sections, numbering and animation.
- Use **alert** for emphasis — it picks up the accent color.
- The left margin always clears the 0.7" sidebar graphic.

A normal slide

Slides come from = sections and = headings; the sidebar, header and footer are automatic.

- Touying handles sections, numbering and animation.
- Use **alert** for emphasis — it picks up the accent color.
- The left margin always clears the 0.7" sidebar graphic.
- This bullet appears on the next subslide.

Two columns

Left column: the `composer` argument splits the slide body.

Right column: see the Touying docs for all layout options.

Code, math, more

Inline code, and equations:

$$E = mc^2$$

One big idea.

Second Section

Details

- Subsections (==) become slides at a deeper level.
- Everything after #show: appendix below is appendix material.

Brand colors

Every color lives in `palette.typ`; use `palette.orange`, `palette.teal`, ... anywhere in the deck. The full palette:

Swatch	Name	Hex
	purple	#71618D
	purple-light	#A594C3
	lilac	#DCD4E6
	mauve	#AFA8BA
	orange	#FF9B7D
	peach	#FFCEB1
	pink	#C76E96
	yellow	#F9F871
	cream	#FEFEDF
	rust	#925A4F
	clay	#CA8D80

Swatch	Name	Hex
	taupe	#BEA6A1
	sage	#4D8075
	teal	#00C9A4
	mint	#53FBDD
	deep-teal	#007897
	blue	#5594CB
	cyan	#00CAE9
	ink	#030519
	gray-dark	#6C6575
	gray	#8F8899
	gray-darker	#4A4453
	accent	#B9497B

Appendix

Backup slide

Appendix slides keep the sidebar; numbering continues and the footer's total stops advancing, as usual with Touying.
